TB Policy Addendum

Use of Tubersol for Non Burlington residents:

Upon the proximity of the expiration of the Tubersol solution, TB skin testing will be opened up to non-residents via a first come first serve basis. Names of prospective patient(s) throughout the month may be collected and placed on a potential call back wait list. If near the expiration of Tubersol (approx 27 days after the vial is opened) and any usable testing solution is remaining for further testing, calls shall be made to persons on the wait list. Being placed on the wait list is not a guarantee to obtain a test. All TB policies for residents remain in full force and effect.
